

Active Directory Engineer

Position Description

The selected engineer will provide services in support of the U.S. Army Network Enterprise Technology Command (NETCOM).

- Provide operational and technical engineering support for the implementation, testing, integration, interoperability, and sustainment of information technologies comprising NETCOM Enterprise capabilities
- Support engineering support, testing and technical support in the implementation of the Network Operations (NetOps) capabilities
- Support government efforts in continued deployment of enterprise NetOps capabilities that directly support the Army's maturing transformation and modularity concepts, doctrine, architecture, and organizations
- This effort provides direct support to the NETCOM CG Priorities

This position is located in Fort Huachuca, AZ; some relocation assistance, while not guaranteed, may be available.

Desired Skills:

- Current Computing Environment (CE)
- Microsoft Solutions Associate (MCSA) – Attainable
- Hands-on experience with Directory Services products and services integration in relation to NetOps capabilities in support of the LandWarNet (LWN) mission
- Experience supporting enterprise environment

Responsibilities:

- Provide security engineering and analysis supporting the implementation of Enterprise Directory Services & Authentication (EDS&A) across the Army Enterprise Infrastructure (AEI)
- Conduct and document security risk threat assessments, prepare recommendations for countermeasures
- Provide security-related technical expertise for hardware and software components and in the development of Operational Configuration Management (CM) baselines for EDS&A tools and support of Identity and Access Management (IDAM) systems
- Implement and standardize Directory Service, Identity Management, and AD structures on the Non-secure (NIPRNet), Secured (SIPRNet), and Department of Defense Information Network (DoDIN) in the AEI in support of the Enterprise initiative
- Support the Enterprise Active Directory (AD) architecture design and migration fielding, performing AD migration support to an AD and Enterprise Directory Services (EDS) environment across the AEI
- Review and advise on the alignment of project requirements with related AD applications, and EDS enterprise designs and plans
- Providing engineering integration support to mitigate unforeseen technical issues during Configuration Change and Release Management (CCRM) and contributing input for Request for Change (RFC) submissions for Configuration Management Board (CMB) review
- Develop standardized Group Policy Object (GPO) and Internet Protocol Security (IPSec) model designs
- Develop programmatic scripts as necessary to identify and confirm that derived enterprise solutions are without redundancy, consistent, and do not negatively impact operations
- Conduct AD and enterprise testing for related operational RFC submitted to NETCOM
- Defining, documenting, and sustaining internal (Army) and external (DISA) system Common Interfaces (CIs) for consistent and persistent delivery of Exchange services as delivered from DISA

Minimum Qualifications:

- BA/BS +7 years technical experience (Twelve years of direct relevant technical experience may be substituted for education)

- Current Information Assurance (IA) certification: IASAE III (CISSP-ISSEP or CISSP-IAASP). IA Certification Category and Level (IAW DoD 8570.10-M and BBP 05-PR-M-0002)
- Active Secret Clearance

Preferred Qualifications:

- Working knowledge and understanding of enterprise Directory Services concepts, AD, Messaging, and EDS procedures
 - Expertise in all aspects of Microsoft Windows operating systems to include implementing directory services, messaging, and application servers into the enterprise environment
-

Vision IT provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, sex, national origin, age, disability or genetics. In addition to federal law requirements, Vision IT complies with applicable state and local laws governing nondiscrimination in employment in every location in which the company has facilities. This policy applies to all terms and conditions of employment, including recruiting, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation and training.

Vision IT expressly prohibits any form of workplace harassment based on race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, genetic information, disability, or veteran status. Improper interference with the ability of Vision IT's employees to perform their job duties may result in discipline up to and including discharge.
