## Army Gold Master (AGM) Release Management Senior Engineer

**Vision IT:** As an **Army Gold Master (AGM) Senior Systems Engineer**, you will provide services in support of the U.S. Army Network Enterprise Technology Command (NETCOM). You will provide operational and technical engineering support for the implementation, testing, integration, interoperability, and sustainment of information technologies comprising NETCOM Enterprise capabilities. You will support engineering support, testing and technical support in the implementation of the Network Operations (NetOps) capabilities. Support government efforts in continued deployment of enterprise NetOps capabilities that directly support the Army's maturing transformation and modularity concepts, doctrine, architecture, and organizations. *In assuming this position, you will be a critical contributor to meeting NCI's mission: To deliver innovative, cost-effective solutions and services that enable our customers to rapidly adapt to dynamic environments.*

*This position is located in Fort Huachuca, AZ.; some relocation assistance, while not guaranteed, may be available.*

### Highlights of Responsibilities:

- Providing independent verification and validation support for the AGM release management for all operating systems.
- Testing beta, release candidate and final release builds to ensure proper functionality within a domain environment
- Testing AGM products against commonly used Army-approved applications and specific server roles.
- Documenting test results and issues for each phase of testing per the AGM Quality Management Plan, AGM Test Matrices and the Issue Tracker Log.
- Reviewing and verifying security settings of AGM-supported operating systems based on DISA STIGs, United States Government Configuration Baseline (USGCB), DoD Joint settings and Army defined requirements.
- Supporting development of AGM Group Policy Objects that meet AGM requirements for supported OSs.
- Providing input in requirements and release testing of the AGM monthly release, annual builds and new OS releases.
- Assisting the Government in preparing and maintaining lab environments that mirror the Army production environment using the AGM-built OSs.
- Providing support to the Enterprise Change, Configuration, and Release management process for the AGM Program.

### Requirements:

- Current Information Assurance (IA) certification (required at performance start date): IAT Level III (CISA, GCIH, GCED, CISSP (or Associate), CASP).
- Clearance (required at performance start date): Secret (in accordance with AR 25-2)
- Bachelor's Degree in an IT related field with seven years practical experience or twelve years of direct relevant technical experience may be substituted for education.
- Current Computing Environment (CE) certification (attainable within 6 months of performance start date): Microsoft Certified Solutions Associate (MCSA)

### Preferred Education and Experience:

- Microsoft Certified Solutions Expert (MCSE)
- In-depth knowledge and experience in the following:
  - Software Development Lifecycle (SDLC) management
  - Automated mechanisms for deploying configured baselines

- OS and application install process
  - Security automation
  - Non-Microsoft applications, examples of non-Microsoft applications include Active Client, Adobe products and Java
  - Web development
  - Application of IA processes/principles IAW NIST, DISA, NSA, RMF
  - Experience in software development for line of business mobile applications Application of IA processes/principles in accordance with NIST, DISA, NSA, and RMF
  - Operating Systems: Windows Server 2012 R2/2016/Windows 10 Desktop Operating System
  - Experience with ASP.NET Framework and C++ and understanding of Object-Oriented Design
- 

Vision IT provides equal employment opportunities (EEO) to all employees and applicants for employment without regard to race, color, religion, sex, national origin, age, disability or genetics. In addition to federal law requirements, Vision IT complies with applicable state and local laws governing nondiscrimination in employment in every location in which the company has facilities. This policy applies to all terms and conditions of employment, including recruiting, hiring, placement, promotion, termination, layoff, recall, transfer, leaves of absence, compensation and training.

Vision IT expressly prohibits any form of workplace harassment based on race, color, religion, gender, sexual orientation, gender identity or expression, national origin, age, genetic information, disability, or veteran status. Improper interference with the ability of Vision IT's employees to perform their job duties may result in discipline up to and including discharge.
